

Discover mobility

We have designed and built a Personal Transporter (PT) unique in functionality and application. The Brilliant Wheels PT will change the way we think about transport and will revolutionise the way we travel - Truly a personal mobility experience for all.

Customize your ride

Ordering your Brilliant Wheels PT online allows the buyer to create a personalised PT. Regardless of your individual needs or challenges, Brilliant Wheels provides you with options never seen before. Simply select from color, material, appearance, functions, advanced actions and more, to create your ideal PT. Your personalised PT is built to suit your own needs, and at the press of a button can also easily be adapted for use by others using the onboard computer.

World Patent

The world's first comprehensively patented 3 in 1 PT vehicle - Stand and ride, sit and ride or powerwalk to your destination - freedom mobilised.

Through innovation we exceed the diverse transportation and mobility needs of all, driven by innovative concept, design and technology.
"Exciting the human spirit in flight...on wheels."

THE USER EXPERIENCE

The Brilliant Wheels PT is supplied to the user with complete hardware, integrated robotic function and software – no need to return the PT if the user wants to activate a specialised function.

The basic, advanced and specialised functions of the Brilliant Wheels PT are simply activated using the onboard mini-tablet dashboard – setting the perfect position or ride for every occasion.

This allows the user to adapt the PT to specific needs and circumstances. Whether a long distance travel to work in a sitting or standing position, participating in sport or relaxing, your experience is simply Brilliant every time.

YOUR SAFETY, OUR CONCERN

The Brilliant Wheels PT was designed to ensure optimal structural safety, complying with industry standards and requirements, while providing the user with the highest levels of comfort and luxury.

BENCHMARKING NEW STANDARDS

The unique design concepts allow the client to use modern plug and play technologies to customise and tailor the function and abilities of the Brilliant Wheels PT exactly to their own needs. The user does not adapt to the PT anymore, the PT adapts to the user.

BRILLIANT WHEELS

REDEFINING THE PT CONCEPT

We have combined and integrated the best of skill and knowledge from the Medical, Aeronautical, Engineering, Mechatronic, Material, Transport and Digital Industries worldwide to redefine the concept of the ideal PT.

THE FIRST CROSS MARKET PT

A single PT platform suitable for the able-bodied and disabled market allowing sport, recreation, office, general, specialised and rough terrain use, all in one. Different applications, different needs, different people... a single PT Platform.
The smart and logical solution.
